Seen

Once upon a time close to Brahmaputra river in Dibru Saikhowa National Park there lived three tigers, mama tiger, son tiger and daughter tiger. The daughter tiger was always listening to everything. On the other hand, the son tiger was mischievous.

Mama tiger warned them of monsters in the Brahmaputra river
from which they drink water everyday.

The daughter tiger was always cautious but the son tiger had a very playful nature.

One day the son tiger saw two eyes floating above the water surface close to the river bank. He went towards it unknowingly that it was a crocodile. The crocodile immediately took him under water and ate him.

Moral :- Caution is the parent of safety.
